PSM Engineering Services
Calle 21 de Junio #306
Col. Satelite
Reynosa, Tamaulipas. 88795

To our customers and future bussines partners:

At PSM, we think differently and always challenge the status quo. Our team looks at each project from an entrepreneurial point of view. As a consequence, we are able to support shrinking timelines, aggressive budgets, and world class workmanship.

Attached is a summary of our areas of expertise. The areas outlined can be divided into three parts:

- 1) Brick-and-mortar. Our team is able to help with mezzanines, small rooms or manufacturing areas. We can meet any type of building specifications and materials.
- 2) Equipment installation, design and refurbish. In today's competitive work environment, our team is well versed in the latest green and high efficiency technologies. These can be in production or facilities equipment as well as environmental technologies.
- 3) Production support. Should you require to meet high volume output from day one, our people are well trained, experienced, and have supported World-class operations.

On behalf of PSM, we thank you for this opportunity and look forward to becoming a partner in the near future. Please, let us know if you require any additional information.

Sincerely,

PSM Engineering Services
